PROFESSIONAL SUMMARY

Results-driven Statistics undergraduate with growing expertise in data analysis, statistical modeling, research, and data visualization. Skilled in collecting, cleaning, analyzing, and interpreting data to generate actionable insights for decision-making. Proficient in Excel, SPSS, R, Python, SQL, and Power BI, with practical experience in analytical projects, research, reporting, and dashboard development. Strong problem-solving, communication, and leadership abilities with a passion for leveraging data to solve real-world challenges and support organizational growth.

CORE COMPETENCIES

Data Analysis & Statistics

- Data Cleaning and Preparation
- Statistical Analysis
- Quantitative Research
- Survey Design and Data Collection
- Data Interpretation
- Predictive Analytics
- Reporting and Documentation
- Statistical Modeling

Data Visualization

- Power BI
- Tableau
- Excel Dashboards
- Data Storytelling

Technical Skills

- Microsoft Excel
- Google Sheets
- SPSS
- R Programming
- Python
- SQL
- HTML
- CSS
- JavaScript
- Git & GitHub

Professional Skills

- Problem Solving
- Critical Thinking
- Project Coordination
- Leadership
- Communication
- Teamwork
- Time Management
- Report Writing

EDUCATION

Bachelor of Science in Statistics

Meru University of Science and Technology

Expected Graduation:2028

Relevant Coursework

- Probability Theory
- Statistical Inference
- Data Analysis
- Research Methods
- Calculus
- Linear Algebra
- Operations Research
- Statistical Computing

PROJECT EXPERIENCE

Founder & Lead Analyst – HM Analytics & Insights

2025 – Present

Responsibilities

- Develop data-driven solutions for social and economic challenges.
- Design analytical frameworks for research and reporting.
- Conduct exploratory data analysis and insight generation.
- Create data visualizations and dashboards.
- Prepare analytical reports for decision-making.

Key Achievements

- Established an analytics initiative focused on evidence-based decision-making.
- Developed strategic plans and operational frameworks for future growth.

Automated Business Profit Tracking System

Project Overview

Designed and implemented an automated profit-tracking system for a retail and distribution business using Google Forms and Google Sheets.

Key Features

- Automated revenue and profit calculations.
- Sales and expense monitoring.
- Real-time reporting and analysis.
- Performance tracking dashboards.

Tools Used

- Google Forms
- Google Sheets
- Spreadsheet Automation

Personal Data Analytics Portfolio Website

Project Overview

Developed a professional portfolio website showcasing analytical projects, dashboards, technical skills, and professional achievements.

Technologies

- HTML
- CSS
- JavaScript
- GitHub

Teacher Recruitment Platform (Concept Development)

Project Overview

Designed a technology-based solution to connect teachers with schools through a centralized recruitment platform.

Proposed Features

- Job matching system
- Teacher profiles
- School recruitment portal
- Location-based opportunities

RESEARCH & ANALYTICAL EXPERIENCE

Independent Research and Analysis Projects

2024 – Present

Responsibilities

- Collect and analyze data from various sources.
- Conduct quantitative and descriptive analyses.
- Prepare reports and presentations.
- Interpret findings and provide recommendations.

Achievements

- Applied statistical concepts to real-world datasets.
- Improved data visualization and reporting skills.
- Developed practical experience in analytical thinking and problem-solving.

LEADERSHIP EXPERIENCE

Blogging and Online Writing Trainer

Key Contributions

- Trained over 30 participants on blogging and online content creation.
- Delivered practical sessions on research and digital communication.
- Supported participants in developing professional writing skills.

Youth Forum Election Coordinator

Key Contributions

- Coordinated election planning and implementation.
- Managed voter verification processes.
- Promoted transparency and accountability during elections.

TECHNICAL PROFICIENCIES

Category	Skills
Data Analysis	Excel, SPSS, R, Python, SQL
Visualization	Power BI, Tableau, Excel Dashboards
Web Technologies	HTML, CSS, JavaScript
Productivity Tools	Microsoft Office, Google Workspace
Version Control	Git, GitHub

CERTIFICATIONS

- Google Data Analytics Certificate
- Power BI Certification (*coursera*)
- Python for Data Analysis (*coursera*)

- Inclusive: Statistics, Data Science, Research Certifications

ACHIEVEMENTS

- Founded HM Analytics & Insights.
- Designed automated business reporting and profit-tracking systems.
- Trained more than 30 individuals in blogging and digital communication.
- Developed analytical projects applying statistical concepts to practical problems.
- Continuously building expertise in data analytics, statistics, and business intelligence.
